

# Automatic Frame System

More efficient emblem production due to increased output.

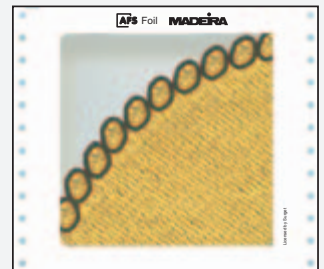

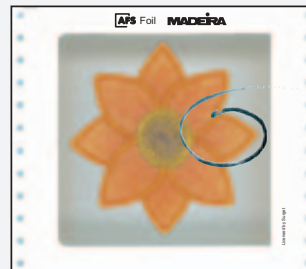

Suitable for all major industrial machine brands  
Same frame for either single head or up to six head embroidery machine

## Step by step

- Embroider the emblem
- Push out of E-ZEE PreFrame
- Ready to use

No more hand trimming and no need to merrow **emblem borders**  
**Endless possibilities for creative and unusual emblem borders**

Higher efficiency in production planning  
Using traditional methods, the entire emblem must be embroidered  
**Pre-embroidered emblems** on AFS allow additions, such as names, to be added quickly and easily

E-ZEE PreFrame - No more changing of fabrics, backings and frames  
E-ZEE continuous frames do all the work - and one size & material fits all!

- Speedy and easy production runs
- Full automatic design change means less down time

Madeira AFS - gives you the efficiency and flexibility you only dreamed of!
